

worldwide innovator in flexible liquid packaging

FOR IMMEDIATE RELEASE

CDF exhibiting BIB at the ILMA Management Forum

Plymouth, MA, March 14, 2014 - CDF Corporation, a global company that specializes in the manufacture and sale of high quality [pail](#), [drum](#), [intermediate bulk container](#) and [bag in box liners](#) and [flexible packaging](#), will exhibit Cheertainer® and pillow bag in box liners at the Independent Lubricants Manufacturers Association's Management Forum.

The Independent Lubricants Manufacturers Association's Management Forum will be held April 10th through the 18th in Aventura, FL. The management forum is three days of networking, informative sessions, committee meetings and the opportunity for customers and suppliers to meet; over 300 attendees are anticipated.

CDF's bag-in-box liners are manufactured in a clean room environment, using cutting-edge CDF1 Smart Seal Technology that monitors and ensures consistent, high-quality seals. BIB flexible packaging offers many benefits, such as excellent quality due to superior seam strength and there is no foaming or splashing because the package fills without air. Bag-in-box sustainable benefits also include reduced plastic consumption compared to rigid cube-shaped containers and reduced transportation and storage. These liners are suitable for use with manual, semi-automatic and fully automatic fill lines. CDF's bag in box liners are available in the industry standard size of 6 gallons, other sizes are also available upon request.

About CDF Corporation

[CDF](#) Corporation is a privately held international company that specializes in the manufacture and sale of high quality pail, drum, intermediate bulk container and bag in box liners and flexible packaging. CDF manufactures products ranging in sizes from 2 ounces to 330 gallons in its Plymouth, Massachusetts ISO certified facility.
