

worldwide innovator in flexible liquid packaging

## FOR IMMEDIATE RELEASE

### ***CDF exhibits at the Adhesive and Sealant Council Spring Convention & Expo***

Plymouth, MA, April 14, 2014 - CDF Corporation, a global company that specializes in the manufacture and sale of high quality [pail](#), [drum](#), [intermediate bulk container](#) and [bag in box liners](#) and [flexible packaging](#), will be exhibiting at the April ASC Convention, booth# 402.

Representing CDF will be Bag-in-Box Product Manager Iris Thomas and Regional Sales Manager Leigh Vaughn. CDF will display a wide range of flexible packaging solutions at the ASC Expo on April 29. CDF's liners for intermediate bulk containers, drums and pails provide outstanding performance in critical chemical applications. CDF's [bag-in-box](#) liners are an ideal solution for small and large volume needs.

CDF's newest products, the Smart Pail™, a plastic pail replacement system, and the EZ-Flo™ dispensing system will also be on exhibit at the ASC Expo. The [Smart Pail](#) was developed to offer a more sustainable and cost effective system for transporting semi-viscous, solids and some liquids traditionally shipped in plastic pails. The Smart Pail is a semi-rigid, flexible vacuum-formed plastic liner with a unique wide-mouth laminated peel-reseal lidding film structure offering tamper evidence, easy open-close, excellent oxygen barrier and efficient disposal. The end-user simply peels open the peel reseal label, cuts the tamper evident film and pumps, scoops or pours the contents. The peel-reseal lidding can be open and closed multiple times.

The [EZ-Flo Dispensing System](#) is an environment-friendly dispensing alternative to traditional squeeze, pump and spray bottles. The EZ-Flo's innovative dispensing system uses patent pending technology to dispense products of various viscosities without the assistance of gravity. The system is cost effective, reducing waste, time and labor, while improving overall productivity.

The Adhesive and Sealant Council Convention and Expo will be held April 28-30 at the Hyatt Regency in Orlando, Florida. The Adhesive and Sealant Council (ASC) is a North American trade association dedicated to representing the adhesive and sealant industry. The Council is comprised of 124 adhesive and sealant manufacturers, raw material and equipment suppliers, distributors and industry consultants, representing more than 75% of the U.S. industry with operations around the world. <http://www.ascouncil.org>

#### **About CDF Corporation**

[CDF](#) Corporation is a privately held international company that specializes in the manufacture and sale of high quality pail, drum, intermediate bulk container and bag in box liners and flexible packaging. CDF manufactures products ranging in sizes from 2 ounces to 330 gallons in its Plymouth, Massachusetts ISO certified facility. Our unique products satisfy a variety of markets and applications including the food and beverage, chemical and cosmetic industries. [www.cdf1.com](http://www.cdf1.com)
